REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Board and Citizens:

I herewith submit my nineteenth annual report of the schools of Allentown, for the year ending June 30, 1931.

There were maintained during the year, four schools for a school-year of 37 weeks, with no change in the teaching force.

The school enrollment was 101, with a daily average attendance of 96.83 per cent.

The schools were in session on an average of 360 half-days.

Of the four teachers employed, all are graduates of a normal school.

HEALTH

Hygiene, sanitation and physiology are taught in all our schools with emphasis placed upon pure foods, pure water, need of ventilation, and the evil effects of alcohol, nicotine, and narcotics.

Health inspection of the school children by our school nurse covers all contagious and infectious diseases, and most of the bodily defects, seeking to equip our pupils with good physical development and vigorous health. The school nurse, Miss Douillette, by her fidelity and industry, has succeeded in having many defects remedied and has had the hearty co-operation of parents, physicians and surgeons.

CHILD TRAINING

The principal training-ground for the child's mind is the home and the school. History, pointing out that our present civilization has developed as a result of conflict and strife, shows that the problems and difficulties overcome by

the child at home and at school determine his behaviour, ambitions, and in fact the whole course of his existence.

As in childhood the teeth and gums need hard food to chew and the muscles need resistance to work against, so the child's mind needs worthy problems and difficulties to contend with and conquer both for his present happiness and future welfare.

Parent and teacher should realize that it is the duty of the child to do the work, and their duty to direct how the work is to be done without waste of time and energy. The early New England home in which each member of the family had its daily tasks to perform, is a valuable lesson for modern parents to learn and to heed.

The advice of a few educators,—(only a few), to assign only agreeable work to the child, is unwise and fallacious. The greatest happiness and success in life comes from the accomplishment of worthy deeds; as one noted educator said "in getting the thing done." Unless the individual, through his own thought-process, gains knowledge, can he hope that his knowledge will serve him in his time of need?

SCHOOL CONDITIONS

The work in our schools is being well done. The teachers are industrious, and are carrying out the state program of study with a well-planned daily time-table, and are supervising the conduct of the pupils on the play-grounds.

The few disciplinary troubles, chiefly caused by the lack of home training and parental government, make the duty of the teacher more difficult, the school life of the pupil less pleasant and his work less efficient.

The work in music, domestic science and manual training was conducted successfully.

The school board is deeply interested in the welfare of the pupils and is furnishing every means in its power for good schools. It is actively co-operating with the teachers

and superintendent that the pupil may have such an education as will prepare him for complete living.

Parents and citizens are invited to visit the schools frequently and parents are asked to examine carefully the report cards sent to them for their signatures. These cards are to inform the parents of the work done by the pupil, and of his conduct; teachers will gladly explain any report not understood.

In conclusion I express my appreciation for the co-operation and assistance given to me by the teachers, the school board and the citizens.

Respectfully submitted,

HENRY S. ROBERTS,
Superintendent.

REPORT OF TEACHER OF DOMESTIC SCIENCE

Mr. Henry S. Roberts, Superintendent of Schools:

DEAR SIR:

In submitting the annual report of the Domestic Science classes, I will give a summary of the work accomplished in both sewing and cooking.

In the cooking classes the pupils have been taught:

To economize both in the buying and in the use of left-overs.

To know how to set a table correctly and how to serve properly any meal.

To take care of cooking utensils and kitchen equipment.

To correlate school activities with home life.

Our projects were based upon the proper dishes to serve for breakfast, dinner and supper or lunch.

In sewing the following principles have been taught:

To be able to use the simpler stitches in the making of simple articles.

To master the easier processes in the care and usage of the sewing machine.

To mend torn clothing and make over worn garments in order to get more service from them.

To be able to understand directions on commercial patterns and to do some of the easier cutting out of articles made.

Our projects have been cooking aprons, dish towels, holders, plain and fancy towels, pillow cases, remodelled clothing, dresses, patchwork, underwear and table runners.

Throughout the year we have had the hearty co-opera-

tion of parents, school board, superintendent, and citizens in carrying on this work. To them I extend my sincere thanks.

Respectfully submitted,

EDNA BENWARE,
Teacher of Domestic Science.

REPORT OF MUSIC TEACHER

Mr. Henry S. Roberts, Superintendent of Schools:

The regular work in music which comprises rote singing, sight singing in unison, two, three and four parts, has been made more interesting through the medium of the Music Hour series, which is now in use through the entire school.

In addition to singing, the classes have learned something of the lives of the great musicians, and have studied some of their works, learning the themes of many of them, and thus being better able to recognize them.

Written work has also been a part of the program, some original and also from copy or dictation.

Special days have been observed in song, beginning with Columbus Day, and ending with the close of school in June, while extra programs were given by Miss Montgomery's and Mrs. Benware's classes, the former giving a musical play and the latter a radio program during National Music Week.

Another additional entertainment was furnished on Memorial Day by the boys and girls in Mrs. Bailey's class who presented an operetta.

Mrs. Wattles' class furnished the music for graduation.

Another year's work has ended, made pleasant by the co-operation of townspeople, school board, teachers and superintendent.

Respectfully submitted,

MARTHA F. GALE.
